#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 17 May 2010.
- 2a) This action is **FINAL**.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 16-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Zhang (2003/0010971).

a. As to claim 16 Zhang teaches a method and device, comprising a n-type semiconductor layer (see e.g. fig. 4 item 82); at least one insulator layer formed on the n-type semiconductor layer and provided with a plurality of holes (see e.g. item 86); quantum dots formed by filling the hole (see e.g. item 90); and a p-type semiconductor formed on the insulator layer in which the quantum dots are formed (see e.g. item 94); wherein the p-type semiconductor layer is contacted (electrical) with the quantum dots, or both n-type semiconductor layer and p-type are in contact with the semiconductor layer (see e.g. fig. 4D). Zhang further teaches a barrier formed on the insulator and the quantum dots (item 92)

b. As to claim 17, Zhang teaches the quantum dots form a surface, forming a horizontal plane, in direct contact with the p-type and the n-type layer.

c. As to claim 18, Zhang teaches the quantum dots are directly contact the n-type layer formed underneath the dots.

***Allowable Subject Matter***

3. Claims 1, 3-10, 12, and 14 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: prior art fails to teach or suggest a method or device with a second insulator formed on the first layer with a barrier layer form in between in conjunction with the other elements of claims 1 and 10.

***Response to Arguments***

5. Applicant's arguments with respect to claim 16 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
